

Durham & Southern Wood Caboose

Numbers X83 and X84 were a different caboose, you can notice this by the steps.
The East Coast Railroads model is X85 (below) and X86.

Below X-85 have been rebuilt with plywood panels and has a black cupola.
X-85 ladders do not extend above the roof plus it has different lettering.

X-86 below was also rebuilt with plywood panels and a black cupola. The lettering on the right says
“Donated to the Durham Children’s Museum by Seaboard Air Line R. R. and Durham & Southern Rwy”
It now sits at the Durham’s Museum of Life and Science.
